

INTERTEK SWEDEN

Celebrating 100 years of assuring innovation

Event: Driving efficient global market access for innovative technologies

Since 1925, Intertek Sweden has delivered assurance, testing and certification ensuring that innovative products meet strict regulations on quality, safety and sustainability. Today, we continue to help our customers take their latest innovations to market around the world.

To mark our 100th anniversary, we're pleased to invite you to a special event 'Driving efficient global market access for innovative technologies' at our laboratory in Kista on May 15.

AGENDA HIGHLIGHTS

- Keynote seminar: Innovation without frontiers: Lessons from Space
- Christer Fuglesang, professor of spaceflight, Royal College of Technology
- Seminar: Steps to Compliance with RED Cybersecurity and Cyber Resilience Act Requirements - Anders Kjellvard Mattsson, Head of IoT Cybersecurity Services, Intertek
- Seminar: Navigating the new EU Machinery regulation, including new functional safety requirements - Majipt Sebastin (CFSP), Technical Expert, Functional Safety, Intertek
- Mini seminars on the latest in compliance for medtech, industrial equipment, energy storage and more.
- Tours of our EMC/radio, Hazard test, EV Charger and Lighting labs

Throughout the day, you will also have plenty of opportunities to chat with experts from our battery, medical device testing and medical device Notified Body, multimedia, cybersecurity, functional safety, EMC/radio, industrial, calibration and assurance teams.

Looking forward to seeing you here!

Timo Lieber

Managing Director, and the Intertek Sweden leadership team

MEET OUR SPEAKERS

Christer Fuglesang

Christer was first launched into space aboard the STS-116 Space Shuttle mission on 10 December 2006, making him the first Swedish citizen in space. He is currently professor of spaceflight at the KTH Royal Institute of Technology in Stockholm, where he heads the KTH Space Center.

Anders Kjellvard Mattsson

Anders has over ten years of experience in the field of cybersecurity for electrical products. Since 2024, he has led Intertek's IoT Cybersecurity Services team for the Nordics.

Majipt Sebastin, CFSP

Majipt is a technical expert in functional safety at Intertek with 13+ years' experience in functional safety, robotics, household products and machinery assessment, testing and certification.
